DEMAND FOR AMERICAN  
FLOUR FROM SIBERIA.

SEATTLE, Nov. 7.—For the first time since before the Russian-Japanese war Puget Sound flour millers are receiving inquiries for flour from Siberia. The fresh demand for American flour is said to be the result of a crop failure in Siberia. Late advices from the Far East say that efforts are being made to have the Russian government remove the import duty which has kept American flour out of the Siberian market.

Flour shipments from Puget Sound to the Far East during October aggregated 203,251 barrels, or more than double the number of barrels shipped during September. During October Columbia river mills shipped 151,899 barrels.

Garbage wagons of all sorts are to be seen around the city, and yet there are hundreds of piles of banana trees stacked up on the sidewalks.

This morning Dr. Pratt and Dr. Blue did some good long distance walking among the banana groves of the city. The two medics traveled on foot, back and forth, among the trees, for hours. It is claimed that many specimens of wrigglers were found.

## CURRIE'S ANSWER

(Continued from page one.)

struction of his banana trees, the affidavit of entomologist Otto H. Swezey which may have an important bearing on the case.

Mr. Swezey in his affidavit says: "That he is a resident of the City and County of Honolulu, Territory of Hawaii, and for more than six years last past has resided in said Honolulu, and during the whole of said mentioned period has been and now is employed as entomologist by the Planters' Association at their experimental station, in said Honolulu, and other portions of said Territory, and that deponent is an entomologist by profession and training;

"That deponent has, in the said City and County, and within and during the ten days preceding the date hereof has for himself and under the direction of the Central Sanitation Committee acting in conjunction with the Board of Health of said Territory, carefully and properly and scientifically examined about one hundred (100) banana plants, said 100 plants being then and there growing at the following places and sections of the city of Honolulu, in said Territory: to-wit, Kaimuki, Palolo, Makiki and Paena;

"And that, upon the examinations then and there had, of said banana plants, deponent was unable to and did not find any larvae of any species of mosquito whatsoever; that deponent knows and is well acquainted with the species of mosquito known as and called the Scutellaris (Stegomyia Scutellaris), and also, deponent knows of the so-called "yellow fever" mosquito (Stegomyia Calopus) and of its physical appearance and distinctive markings; that deponent is informed and believes and so states the fact to be that, in the said City of Honolulu, and at a period covering the last ten days, there has been and now is an unfortunate lack of knowledge of the accurate distinctions between the species Calopus and of Scutellaris above and hereinafter mentioned; and that the said mosquito of the Scutellaris variety is present and is prevalent in said City and County in large numbers and that, because of the similarity of the markings of the said Scutellaris to those of the said Calopus, the former named insect has been habitually mistaken for the said Calopus variety of mosquito.

"That, during the period of deponent's residence in said Territory deponent has, at no time, seen or discovered a single live mosquito of the kind, species and variety known as and called Stegomyia Calopus, but that deponent has seen, in entomological collections in said Honolulu, the said Calopus insect, mounted for exhibition."

At \$6.00 each, and the new Stevens seven-passenger touring car, at \$5.00 each. Get your party together and call up Silva's Auto Stand, back of Park Theater on Chaplain St. Phone 1173. Remember the Hupmobile is on hand.

The annual meeting of the Territorial Teachers' Association will be held on Monday next at 3 p. m. at the McKinley High School. Dr. Rupert Blue and Dr. W. C. Hobdy will deliver addresses upon the Sanitation Campaign, with special reference to the duties of the schools. In addition to this important business there will be the annual election of officers.

Secretary Petrie, of the Shippers' Wharf Tax Committee, wrote to the Chamber of Commerce offering \$5000 of the fund immediately and \$35,000 when the government funds are exhausted, in aid of the mosquito campaign. A condition was stipulated that the commercial bodies should impress on the legislature the necessity of providing an emergency fund to suppress epidemics.
